

JSK36NSL Series Lightweight 5th Wheel

JSK36NSL

The JSK36NSL lightweight topplate offers weight savings without sacrificing the safety and proven reliability JOST is known for.

Safety First

All JOST fifth wheels have the same proven locking mechanism. Unlike competitive lightweight fifth wheels that can be complex with new, unproven locking mechanisms.

Capacities & Ratings

Maximum Vertical Rating
45,000 lbs

Maximum Horizontal Rating
150,000 lbs

Ready To Couple

Safely Locked

Benefits

- Weighs 210 lbs, a 30 pound reduction which allows for an increase in payload, improved fuel efficiency and a reduction in greenhouse gas.
- Can be rebuilt in 30 minutes without removing the topplate.
- Drivers and technicians are familiar with the principle and operation and maintenance of the JOST locking mechanism.
- Offers an economical solution on new truck specifications.
- An ideal choice when replacing competitive assemblies.
